RayWhite

51 St. John's Avenue, ASHGROVE

"We would like to thank Jeff for selling our home so quickly. We have lived in St John's Wood for 24 years but knew we had to move on and found another property we loved. We have known Jeff for a while and were happy to entrust him with the job of selling for us. Our home needed to be sold as soon as possible and we were very nervous about the whole process as we had tried to sell before without success. Jeff never doubted for a moment that our house would sell.

His positive attitude and commitment were admirable. He came up with a marketing strategy that was perfect, making a video that highlighted the beautiful setting of our home. We had a lot of people view the house in the first week & a signed contract in six days at a great price. We still can't believe it happened so quickly!

One of Jeff's major strengths is communication. He was always available and he kept us informed about every step of the process. He was also here in a flash if we needed help with anything. We would highly recommend Jeff to anyone thinking of selling their property."

TESTIMONIAL...

"Jeff Smith is the type of real estate agent that you want to deal with - intelligent, energetic, proactive and highly attentive. At the time we appointed Jeff, we had two adjoining properties that had become stagnant in their listing. Jeff energetically and proactively reconsidered their advertising channels, reimagined the selling narrative, and made himself available at all hours to ensure that the sales process had the immediate attention it needed. He just kept going the extra mile to make the sales - he catalogued our fixtures and fittings, engaged with us and buyers at all hours 7 days a week, and even voluntarily arranged a showing on New Years Day. So we were very pleased when he achieved the sales at our target price within our target time frames. Without Jeff's intelligent, energetic, proactive and attentive input, I have no doubt that our properties would still be unsold. I'd have no hesitation to recommend Jeff Smith and work with him again myself."
